May the force be with you . . .

Well, the contractor says they have done just about as much as they can until the Court of Appeals rules on Mr. Sesko's most recent motion for reconsideration (which will not be granted, but even a denial takes time). Be assured that I will not rest until this project is finished, but in the interest of efficiency, we may have to let the contractor leave the job and come back when the Court sends down their decision.

Janet,

I was "in the neighborhood" doing some field work and happened to drive by SeskoVille. I did not see any work in progress. Please tell me the cleanup has not been stayed or halted!? Happy New Year! Jim S.
